### **Dangerous Goods – The Facts**

The AIDGC DVD and marketing campaign was launched to members on August 17. Already there are requests for the DVD coming in from the upgraded web site. Members who were unable to attend the launch will receive their copies of the marketing kit at the Annual Conference. Members are urged to utilise it to promote their businesses to best exploit the opportunities which will arise under the new NSW DG Regulation.

### **AIDGC Web Site**

As part of the marketing campaign, the site AIDGC web site has been upgraded to take advantage of the latest web design techniques, provide a vehicle for distributing the DVD, and act as an improved portal promoting members services. Our thanks to the marketing committee and Tony Gardiner for their sterling efforts in meeting the August 17 deadline. The members only section is currently disabled for a couple of weeks while it is upgraded to suit the new site format. You will be notified when it is back on line again. We hope you like the new look.

### **AIDGC Logo**

With the investment that has been made in the marketing campaign, the board has decided that we need to protect our logo in order to guarantee our members the certainty of our brand and image. Accordingly, a trademark lawyer has been engaged to register our logo.
